

Dear Abraham Ben Zvi,

I am very pleased to receive a letter from you.

I enjoyed the graduation ceremony very much. It was beautiful, well organized and structured.

My dream has come true! I have long dreamed of studying in Israel and enrolling in magistracy on a diplomacy specialty. I would like to note that the education at the University of Haifa is distinguished by a high level of teaching and an individual approach to each student.

In general, the education process is characterized by the range of the courses and the materials, high-quality teaching, interesting and exciting comments from experts on various issues.

Seminars and lectures were fascinating and useful due to the fact that you have experienced teachers who love their subjects and try to make them attractable for students. Grades obtained were fair though not always easy to deserve, but I consider this to be a positive feature, because the harder you learn the better you know the subject.

After each class, I returned home not only with new knowledge, but also with a good mood. I really like the cozy atmosphere in the school of political science and in the library - large, modern and very comfortable place which always inspires you to learn.

Having gone through the long process of choosing the university I dare to say that for me, the Haifa University turned out to be the choice, made by my heart and leading to my personal success. I am heartily grateful to everyone I happened to communicate during the course of study. The territory of the university is a very beautiful and pleasing sight, its green nature comfort the soul all year round.

I can say that my life has changed significantly and everything around gained new colors for me.

I really like Israel and its people! This is a wonderful country with great opportunities! I fall in love with Haifa and Jerusalem!

I would like to note that Israel is a country to which I want to return and I don't want to go away.

I am sure that the Master's program has broadened my horizons, made me an ambitious and purposeful person who perfectly understands the realities of other countries and cultures, in particular the conflict between Israel and

Arab countries, issues of the historical heritage of the Jewish people, as well as modern world trends.

Dear Professor Abraham Ben Zvi, I appreciate your efforts and your assistance, your positive attitude and kindness, for your interesting and informative lectures!

May I wish you new successes and best results!

Sincerely yours,

Daria Tsubenko
